

BLENDER MASTER CLASS

a hands-on guide to modeling, sculpting, materials, and rendering

DVD
INSIDE

Ben Simonds

CONTENTS IN DETAIL

INTRODUCTION	xv	2 INTRODUCTION TO GIMP	13
Topics Covered	xv	About GIMP	13
What Isn't Covered	xvi	Why GIMP?	13
Requirements	xvi	The GIMP User Interface	14
The Projects	xvi	The Toolbox	14
The Bat Creature	xvii	The Canvas	15
The Spider Bot	xvii	Dialogs	16
The Jungle Temple	xvii	Using GIMP	16
How to Follow the Projects	xviii	Creating an Image	16
Resources Accompanying This Book	xviii	Painting and Drawing	16
Let's Begin	xviii	Brushes and Brush Dynamics	16
		Filters	16
		Layers	17
		Selections	17
		Saving and Exporting	17
		In Review	18
1 INTRODUCTION TO BLENDER	1	3 PREPARATION	19
About Blender	1	Concept Art and References	19
The Blender User Interface	2	Creating, Finding, and Using References	19
Layout and UI Terminology	2	What to Look for in Reference Material	20
Switching Editors and Customizing the UI	3	Composition	21
Multiple Layouts	3	The Rule of Thirds	22
Editor Types	4	Silhouettes and Negative Space	22
The 3D Viewport	4	Simplicity and Focus	23
The Properties Editor	5	Visual Path	23
The Info Editor	6	Testing Compositions in Blender	24
The Node Editor	7	Preparing References in GIMP	24
The UV Image Editor	7	Creating a Reference Sheet	24
Other Editors	7	Aligning Orthographic References	24
Using Blender	7	Using Concepts and Reference Images in Blender	26
Scenes	7	UV Image Editor	26
The Default .blend File	8	Background Images	27
Adding Objects	8	Image Empties	27
The 3D Cursor	8	In Review	28
Selecting Objects	8		
Manipulating Objects	8	4 BLOCKING IN	29
Other Coordinate Systems	9	Basic Modeling Terms	29
Operators	10	Edit Mode	29
Datablocks	10	Other Ways to Model: Curves	32
Naming Datablocks	11		
Modes	11		
Saving and Loading	11		
Appending and Linking	11		
In Review	12		

Modifiers	33
Blocking in the Jungle Temple	34
Snapping	36
Base Meshes	36
Building the Bat Creature Base Mesh	36
Loop Cuts and Face and Edge Loops	37
Poses for Modeling Characters	38
Modeling the Hands and Feet	40
Modeling the Head	42
Tweaking the Model with Proportional Editing	43
Creating the Wings	44
Applying Transforms	45
Shading Modes	46
Creating the Spider Bot	47
In Review	48

5 MODELING THE DETAILS 49

Topology	49
What Is Good Topology?	50
Dealing with Difficult Topology	50
Modeling the Details of the Jungle Temple	52
Walls	53
Statues	54
Stone Carvings	55
Plants	58
IvyGen	59
Ground/Soil	61
Modeling the Details of the Spider Bot	61
Joints	61
Wires	61
Coupling	63
Other Parts	63
Modeling the Details of the Bat Creature	63
Eyes	63
Teeth and Nails	63
In Review	64

6 SCULPTING 65

Sculpt Mode	65
Brush Options	66
Brush Types	67
Creating Custom Brushes	69
Clay Tubes	69
Rake	70
Scrape Flat	71
Crease Lazy	71
Drag Alpha	72

Making Brushes Available by Default	72
Improving Your Sculpting Experience	72
Optimizing Sculpting Performance	72
Customizing the 3D Viewport	73
MatCap Materials	73
Tweaking OpenGL Shading	75
The Multires Modifier	76
Sculpting Concepts	77
Sculpting the Bat Creature	78
Volumes	79
Planes	79
Coarse Anatomy	80
Sculpting Hard-to-Reach Areas Using Shape Keys	80
Hiding Parts of the Mesh	81
Sculpting the Wings	83
Basic Details	83
Sculpting Around the Eyes	83
Time to Retopologize	84
Transferring Sculpted Detail to a New Mesh with a Displacement Map	84
Detailing	87
Posing	89
Expression	89
Sculpting the Spider Bot	90
Body	90
Head	91
Legs	91
Jungle Temple: Creating Incidental Details	92
Sculpting Natural-Looking Faces	92
In Review	93

7 RETOPOLOGY 95

The Basics	95
Using Snapping to Retopologize	95
Alternative Methods for Retopology	96
Retopologizing the Jungle Temple Trees	97
Retopologizing the Bat Creature	98
Decimation	99
Retopologizing the Body	100
Retopologizing the Spider Bot	102
Duplicating Groups of Objects	104
Tips for Retopologizing	104
Head Topology	106
Eyes	106
Mouth	106
Nose/Nasolabial Fold	106
Ears	107
In Review	107

8 UV UNWRAPPING	109	10 TEXTURE BAKING	137
Other Kinds of Texture Coordinates	109	Images and Textures	137
Editing UV Coordinates	110	Assigning an Image	138
The UV Grid	110	Assigning Textures	138
Unwrapping Tools	111	Texture-Baking Controls	138
Seams	112	Texture Map Types	139
Pinning Vertices	113	Baking Textures for the Bat Creature	141
Packing	113	Baking Displacement from Sculpt to	
Assigning UV Textures	113	Final Mesh	141
Testing Your UV Coordinates	114	Bit Depth and Textures	142
Unwrapping the Bat Creature	114	Applying the Displacement Map	144
Unwrapping the Jungle Temple	115	Baking Normal Maps	144
Stone Blocks	115	Baking Ambient Occlusion	144
Trees	115	Baking Textures for the Spider Bot	146
Multiple UV Maps	117	Baking Maps for Multiple Objects	146
Sharing UV Space Between Objects	117	Baking Diffuse Colors and Textures	148
Leaves and Grass	118	Texturing the Jungle Temple	149
Statue	118	General Tips for Baking Maps	151
The Rest of the Elements	118	In Review	152
Unwrapping the Spider Bot	119		
Applying Modifiers and Duplicates	119	11 TEXTURE PAINTING	153
Sharing UV Space Efficiently	119	Texturing in Blender	153
In Review	120	Project Paint	154
		Painting in the UV Image Editor	155
9 HAIR AND PARTICLE SYSTEMS	121	Texturing in GIMP	155
Particles for Hair	121	Creating Brushes for Texturing in GIMP	156
Choosing an Object to Add Hair To	121	Adding Variation to a Brush	157
Vertex Groups for Hair	123	Texturing the Bat Creature	158
Weight Painting	123	Materials and UI Setup for Painting	158
Adding a Particle System	125	Layer Modes and Opacity	159
Particle System Properties	125	Fixing Seams	164
Emission Panel	125	Layer Masks	166
Velocity Panel	126	Creating Specular and Hardness Textures	166
Rotation	126	Layer Groups	166
Render	126	Texturing the Eyes	168
Display	127	Texturing the Jungle Temple	170
Children	127	Hardness vs. Roughness	170
Vertex Groups	128	Creating Seamless Textures with GIMP	171
Particle Mode	129	Texturing the Ground and Trees	171
Shaping Your Hair	129	Texturing the Statue	173
Styling Tips	130	Texturing to Camera	176
Child Particles	130	Texturing the Leaves	177
Peach Fuzz	131	Texturing the Spider Bot	179
Complex Haircuts	131	Creating Three Textures	180
Controlling Particles with Textures	132	Adding Decals	180
Other Uses for Particle Systems	132	In Review	181
Grass for the Jungle Temple	132		
Hair and Fur Tips	135		
In Review	135		

12 MATERIALS

Render Engines: Blender Internal and Cycles	183
Reflection	184
Transmission and Refraction	185
Z Transparency	185
Blender Internal Materials	185
Cycles Materials	187
Other Inputs in Cycles	188
Texture Nodes	189
Nodes in Blender Internal	189
Materials for the Bat Creature	191
Skin	191
Teeth, Nails, and Eyes	196
Fur	196
Materials for the Spider Bot	200
Editing Node Materials	200
Socket Types	201
Other Materials	203
Materials for the Jungle Temple	203
Ground	204
Stone Material	204
Leaves	207
Foreground Rocks and Soil	207
Puddles	207
General Tips for Creating Materials	209
In Review	209

13 LIGHTING

Blender Internal vs. Cycles Lighting	211
Lighting in Blender Internal	211
Shadows in Blender Internal	213
Ray Tracing	213
Shadow Buffers	213
Lighting in Cycles	214
Lamp Objects in Cycles	215
Mesh-Emitter Objects in Cycles	215
World Settings and Ambient Light and Occlusion	216
World Settings in Blender Internal	216
World Settings in Cycles	218
Lighting the Bat Creature	218
Three-Point Lighting	219
Clay Renders and Material Override	221
Shadows and Fur	222
Lighting the Eyes	222
Floor Shadows	222
World Settings for the Bat Creature	223

183

Lighting the Spider Bot	223
Lighting the Jungle Temple	224
World Background	224
Temple Entrance Lighting	224
Fill Lighting	225
Back Light	225
A Note on Soft Shadows	225
General Lighting Tips	226
In Review	227

14 RENDERING AND COMPOSITING 229

The Render Tab	229
Rendering with Blender Internal	229
Rendering with Cycles	233
Balancing Render Time and Quality	233
The Compositor	234
Rendering and Compositing the Bat Creature	234
Render Layers	234
Compositing the Passes	234
Compositing Feedback and Viewer Nodes	238
Organizing Node Trees with Frames and Node Groups	239
Frame Nodes	239
Node Groups	239
Retouching in GIMP	240
Rendering and Compositing the Spider Bot	241
Depth of Field in Cycles	241
Render Settings for the Spider Bot	242
Compositing the Spider Bot	242
Rendering and Compositing the Jungle Temple	242
Background Required	242
Painting the Sky in GIMP	243
Compositing the Temple	244
In Review	246

15 GOING FURTHER 247

Embellishments	247
Adding to the Jungle Temple	247
Adding to the Bat Creature	249
Different Looks	251
Rigging and Animation	251
In Review	252

INDEX 253
