

# CONTENTS IN DETAIL

<b>ACKNOWLEDGMENTS</b>	<b>xvii</b>
------------------------	-------------

<b>INTRODUCTION</b>	<b>xix</b>
---------------------	------------

What Can Audacity Do? .....	xx
What This Book Covers .....	xx
Audacity vs. Ardour .....	xxii

<b>1</b>	
<b>AUDACITY FROM START TO FINISH</b>	<b>1</b>

Audacity Quick-Start .....	2
Audacity in Detail .....	7
Managing Audacity Projects .....	12
Adding Audio Files: Import vs. Open .....	12
Saving Your Work .....	13
Selecting Tracks and Segments of Tracks .....	15
Track Panel .....	19
Cutting Out Unwanted Chunks .....	21
Fade In and Out .....	21
Making Quiet Recordings Louder .....	22
Timer Record and Sound Activated Recording .....	23
Mixer Board .....	23
Track Metadata .....	24
Final Mixdown .....	25
Audio File Formats and Quality Settings .....	25
Understanding File Formats .....	25
Understanding Bit Depth and Sampling Rate .....	26
16/44.1, 24/96, 32-Bit Float .....	27
Bitrate, Bit Depth, and File Size .....	29
Now What? .....	30

<b>2</b>	
<b>BUILDING A GOOD DIGITAL SOUND STUDIO ON THE CHEAP</b>	<b>31</b>

Getting Sound In and Out of the Computer .....	32
An Example Studio .....	33
Sorting Out Connectors .....	36
Multichannel Recording, PCI, USB, FireWire .....	37
USB or FireWire? .....	39

Microphones .....	40
Polar Patterns .....	42
Which Microphones for Which Occasions? .....	43
Microphone Cables .....	44
Smart Miking .....	45
Microphone Preamp .....	45
Speakers and Headphones .....	46
Your Computer Must Have Muscle and Vast Drawers .....	47
Operating Systems .....	47
Portable Recording .....	48
The Secret of Recording Your Own Great Audio .....	50
Visit Appendix A .....	52

### 3

## **TRANSFERRING VINYL LPS (AND OTHER LEGACY MEDIA) TO CD**

**53**

Preparing Vinyl LPs for Copying .....	54
Eight Steps to Converting Records to CDs .....	56
Audacity Settings .....	57
Recording .....	58
Fixing Defects .....	58
Fade In, Fade Out .....	59
Fixing Warps .....	59
Fixing Skips and Pops .....	60
Finding and Repairing Clipping .....	61
Noise Removal .....	61
Customizing Dynamic Range Compression .....	62
Normalization .....	63
Dividing a Long Track into Individual Songs .....	63
Exporting to CD-Ready Files, One Long Audacity Track .....	64
Exporting to CD-Ready Files, Multiple Audacity Tracks .....	64
Writing Songs to a CD .....	65
Copying Vintage 78s .....	66
Connecting Legacy Devices to Your Computer .....	67
Connecting a Turntable to Your Computer .....	69
Connecting a Tape Deck .....	71
Which Is Better: Vinyl, Tape, or CDs? .....	71
The Digital Advantage .....	73
Longevity .....	76

### 4

## **CREATING AND EDITING LIVE TRACKS FOR CD**

**79**

Making Good Live Recordings .....	80
Portable Digital Recorder .....	80
Laptop with Audacity .....	81

Multitrack Recording of a Live Performance .....	82
Be Nice to the Sound Crews .....	83
Audacity Settings for Recording .....	83
Setting Recording Volume Levels .....	86
Starting, Stopping, and Pausing Recording .....	87
Monitoring Your Live Recording .....	87
Editing Live Recordings .....	87
Editing and Downmixing Multitrack Recordings .....	88
Special CD Settings in Audacity .....	90
Trimming .....	90
Splitting Stereo Tracks for Surgical Repairs .....	90
Fixing Clipping and Too-Loud Passages .....	91
Noise Removal .....	92
Compressing Dynamic Range .....	93
Cutting a Single Long Track into Individual Song Tracks .....	95
Creating Graceful Breaks Between Songs .....	96
Normalization .....	97
Optional Track Metadata .....	97
Final Export .....	98
Writing Your Songs to CD .....	99
Labeling Your CD .....	99
Mass CD Duplication .....	99
Combining Songs from Different Recording Sessions, Fix-its, and Special Effects .....	100

## 5

<b>AUTHORING A COMPILATION CD</b>	<b>101</b>
Audio CDs .....	102
There Is Not a Special Audio CD .....	102
Convert MP3s to Red Book CD .....	103
CD Writers and Software .....	103
Three Ways to Author a CD Compilation in Audacity .....	104
One Track per Song Project .....	104
Single Audacity Track Compilation Project .....	106
Single Audacity Track + CD-Mastering Program .....	108
CD Cue Sheets and BIN Files .....	110
Fixes and Cleanups .....	111
Splitting Stereo Tracks for Surgical Repairs .....	111
Normalization .....	112
Making Graceful Fades and Song Breaks .....	112
Configuring Audacity for Orange Book CDs .....	114
Putting an Orange Book CD Collection Together .....	114
File Formats and Quality Settings .....	115
Computer Media Players .....	116
Ripping CDs .....	117
Ripping DVDs .....	118

## **6** **AUTHORING SUPER HIGH-FIDELITY AUDIO DVDS** **119**

What Are WAV, AIFF, and FLAC? .....	120
DVD-Audio Overview .....	121
Creating High-Quality Recordings in Audacity.....	122
More Power .....	122
What Bit Depth Is Best? .....	123
What Sampling Rate Is Best? .....	125
Saving Your Masters .....	125
Creating 5.1 Surround .....	126
Exporting to 16-Bit .....	129
DVD-Audio Authoring Software.....	129
Transferring Legacy Media .....	130
Learn More .....	131

## **7** **CREATING PODCASTS** **133**

The Short Story .....	134
Making a Simple Voicecast .....	134
Audacity Settings .....	135
Cleaning Up Your Recording.....	136
Reducing Too-Tall Peaks .....	139
Fades .....	140
Normalization .....	141
Export to MP3 or Ogg? .....	141
Ogg Vorbis Quality Settings .....	142
MP3 Quality Settings .....	142
Other Lossy Formats .....	145
Exporting Your Podcast .....	146
Two-Person Podcasts .....	146
Editing a Two-Track Recording as a Single Stereo Track .....	146
Editing a Two-Track Recording as Two Mono Tracks.....	147
Adding a Background Music Track.....	148

## **8** **BECOMING AN ONLINE STAR** **151**

File Formats and Audio Quality .....	151
The Business of a Recording Artist .....	155
Establishing an Online Presence .....	156
Online Music Distributors.....	158
Self-Hosting .....	160
Selling Stuff Online.....	161
To DRM or Not to DRM? .....	161
Copyrights and Legal Issues .....	162
Learn More .....	163

<b>9</b>	<b>MULTITRACK RECORDING</b>	<b>165</b>
Tracks, Channels, and Clips .....		166
How to Make Multitrack Recordings .....		168
Playback Tips and Tricks .....		171
Label Tracks .....		172
Creating and Managing Labels .....		173
Using Labels to Edit Multiple Tracks .....		174
Aligning and Moving Tracks .....		175
Link Tracks and Track Groups .....		176
Time-Shifting Multiple Tracks at the Same Time .....		177
Splitting Tracks .....		178
Working with Clips .....		178
Time-Shifting Inside Tracks .....		179
Metronome Track .....		180
Overdubbing .....		182
Measuring and Fixing Latency .....		183
Changing Tempo .....		185
NTSC, PAL, and CDDA Frames .....		185
Creating Loops .....		187
Mixdown to Stereo .....		188
Customizing the Mixer Board .....		189
Too Loud! Clipping! .....		190
Control Your Channel Mapping .....		191
Multichannel Surround .....		191

<b>10</b>	<b>MAKING YOUR OWN RINGTONES</b>	<b>195</b>
Customizing Audio for a Mobile Phone .....		196
Applying Dynamic Range Compression .....		200
Phone Audio File Formats .....		201
RTTTL .....		201
Proprietary Audio File Formats .....		203
How to Transfer Files to Your Phone .....		204

<b>11</b>	<b>AUDACITY PLUG-INS FOR SPECIAL EFFECTS</b>	<b>207</b>
Cross-Fades .....		208
Generate Menu .....		209
Sine Wave Example .....		209
Frequency Range of Generated Tones .....		209
DTMF Tones .....		210
Chirps .....		211
Generating Noise .....		211
Test Tones .....		213

Click Track .....	215
Pluck .....	216
Risset Drum .....	216
Effect Menu .....	218
Reverberation .....	218
Amplify .....	221
Auto Duck .....	222
Change Pitch .....	224
Phaser .....	224
Reverse .....	226
Sliding Time Scale/Pitch Shift .....	226
WahWah .....	227
Linux Plug-ins .....	227
Linux LADSPA Plug-ins .....	227
Linux Nyquist Plug-ins .....	230
Windows Plug-ins .....	230
Audio Effects Glossary .....	230

## **12**

### **FIX-ITS AND CLEANUPS** **233**

Split Stereo Tracks .....	233
Repeat Last Effect .....	234
Noise Removal .....	234
Normalization .....	235
Remove Clicks and Scratches .....	236
Click Removal .....	236
Repair .....	237
Draw Tool .....	237
Truncate Silence .....	238
Change Tempo .....	239
Change Pitch .....	239
Change Speed .....	240
Compress Dynamic Range .....	240
How Much Dynamic Range? .....	241
Compressor Settings .....	243
Chris's Dynamic Compressor .....	245
Leveller .....	247
Equalization .....	248
Fix Timing and Latency Errors .....	251
Analyze Menu .....	252

## **13**

### **CONFIGURING LINUX FOR BEST AUDIO QUALITY** **257**

Using Distributions with Real-Time Kernels .....	258
Specialized Multimedia Linux Distributions .....	260

Building a Real-Time Kernel.....	261
Latency Is Not That Scary .....	262
Sorting Out Linux Audio.....	263
Using ALSA.....	264
Setting Recording and Playback Levels in alsamixer .....	266
Master vs. PCM .....	267
Multiple Sound Cards .....	267
Adjusting Volume Levels .....	268
Hardware Testing with alsa-utils.....	269
Testing Speakers.....	271
Testing Recording.....	273
ALSA Applications .....	274
Querying Your Sound Card .....	275
Using JACK with Audacity.....	276
Connecting a FireWire Recording Interface.....	280
Creating Persistent Configurations .....	282
JACK Settings .....	283
Turning PulseAudio and Phonon Off.....	285
Linux System Tweaks.....	287
The Tangled History of Linux Audio.....	289
Sound Cards.....	290

## **14 CONFIGURING WINDOWS FOR BEST AUDIO QUALITY 291**

Enabling MP3 Support.....	292
Enabling WMA, M4A/M4P Support .....	293
Low-Latency Recording and Audio Driver Fun .....	293
Tuning Windows for Best Performance.....	294
Tuning Windows XP.....	296
Tuning Windows Vista and 7 .....	299
Configuring Windows Audio Devices .....	301

## **15 CUSTOMIZING AUDACITY 303**

Customizing Audacity's Default Options .....	303
Devices.....	304
Playback .....	305
Recording .....	306
Quality .....	307
Interface.....	308
Tracks .....	311
Import/Export.....	312
Projects.....	313
Libraries.....	314
Spectrograms .....	315

Directories .....	315
Warnings .....	316
Effects .....	316
Keyboard and Mouse .....	316

**A**  
**AUDIO HARDWARE** **317**

PCI, PCI-e, PCMCIA Sound Cards .....	318
PCI .....	318
PCI-e .....	318
PCMCIA .....	319
USB Recording Interfaces .....	319
FireWire Recording Interfaces .....	320
Stand Alone ADC/DACs .....	321

**B**  
**GLOSSARY** **323**

A–E .....	323
F–J .....	327
K–O .....	328
P–T .....	329
U–Z .....	331

**C**  
**SEVEN MYTHS OF DIGITAL AUDIO** **333**

The Myth of the Golden Ear .....	333
The Myth of Burn-In .....	334
The Myth of Tube Superiority .....	334
The Myth of Uber Cables .....	335
The Myth of Analog Superiority .....	335
The Myth That You Don't Need Tone Controls .....	335
The Myth That Someone Else Knows Better Than You .....	336
