should now read:

available for iOS, Android, **Kindle**, and Windows devices

**Page 51:** The final paragraph:

Unlike the **walk cycle** diagrams, **the lettered steps in this example (and others) do not represent a single frame of animation.**

should now read:

Unlike the **numbered** diagrams, **examples with lettered steps represent poses and not single frames of animation.**

**Page 115:** Under “Strengths”:

**LEGO Movie Maker**

should now read:

**Stop Motion Studio**

as LEGO Movie Maker was discontinued.

**Page 133:** The last two sentences of the first paragraph which read:

**LEGO provides a great free option for iOS devices with LEGO Movie Maker, which has all the basics.**

should now read:

**Stop Motion Studio by Cateater is a great free option that has all the basics.**

and under “We suggest,” we removed **LEGO Movie Maker (iOS).**
