Index

Numbers
1 x 1 round plates, 69, 128
180 degree rule, 165

A
air balloon, 129
Anderson, Wes, 154
animatics (story reels), 150, 182
animation. See also filmmaking basic, 8–11
principles. See principles of animation replacement, 28–30, 42, 79
software, 132–135, 174
stop-motion, x
surface, 4, 5, 65
tests, 25, 62, 170
Animator’s Survival Kit, The (Williams), 199
anticipation principle, 48–49
aperture setting (camera), 173
arcs, 50
arm lift/drop gesture, 19, 22, 47
arm nod gesture, 22
arms (minifigure articulation), 15
articulation, 13
building for movement, 68–71
of minifigures
full-body poses, 14–16
limited, 35
minuscule movements, 17–18
modified, 33–35
of Miniland figures, 87–88
of PaganoPuppets, 89–90
aspect ratio, 147, 154–155
back light, 167
backgrounds
contrasting color, 59
facades in, 81–82
postboard for, 7
smaller scale elements in, 166
ball bounce exercise, 43
ball-and-socket joints, 70
bars, 18, 34, 68
baseplates, securing, 7, 65
Belville scale, 109
bending at waist gesture, 21
Bionicle scale, 109
blocking principle, 60–61
body language. See gestures
A Boy and His Atom: The World’s Smallest Movie (film), 119
brainstorming, 138–141
Plan Approach, 144
Play Approach, 142–143
Brick Flicks (Herman), 199
brick separators, 128
brick-built prostheses, 34
brickfilmers, x
Beurteaux, Marc, 87
Caron, Marc-André, 89
Fisher, Aaron, 193
Horstmann, Mirko, 35
Marion, Maxime, 86
Pagano, David, viii
Pickett, David, viii
Rolph, Jon, 84
Salaises, Christopher, 86
Troeger, Steffen, 107
Vacca Production, 89
Woodley, Dylan, 107

B
building instructions, for PaganoPuppet, 91–106

C
camera and editing direction (scripts), 145
cameras
choosing, 3, 112–119
cradle/mount, 5, 121–123
creative use of, 119
DSLR (digital single-lens reflex), 118
exposure settings, 173
features, 112–114
macro focus mode, 113, 172
movement, 160–163
point-and-shoot, 117
positioning, 5
smartphones and tablets, 115
software compatibility, 114, 131, 132
tripods, 120
webcams, 116
chroma key, 190–191
cinematography, 154
aspect ratio, 154–155
basic, 9
exposure, 173
focus, 172
frame rate, 156–157
framing shots
shot composition, 164–166
shot movement, 160–163
shot types, 158–159
cinematography, continued  
lighting techniques,  
166–171  
clamps, 7, 65, 129  
clear pieces, 26, 31, 126, 128  
click hinges, 71  
clicks  
LEGO elements, 68  
video editing, 180  
close-up (CU) shots, 159  
clutch power, 66  
colored lights, 168  
compatibility (animation software), 114,  
131, 132  
composing shots, 9, 164–165  
compositing, 190–191  
computers, 130  
contests (filmmaking), 139, 179,  
195, 199  
copyright issues (sound), 179  
creative process (pre-production), 137  
animatics, 150  
brainstorming, 138–144  
script writing, 144–146  
spreadsheets, 151–152  
storyboarding, 147–149  
credits, adding, 187  
critical feedback, 198  
crossfade (dissolve) transition,  
184, 185  
CU (close-up) shots, 159  
cut transition, 184  
cutting/deleting shots, 183  

deejed foot kick gesture, 23  
depth (z-axis) shot movement,  
162  
desk lamps, 5, 124  
dialogue, 177  
recording, 178  
scripts, 145  
diffusing light, 169  
digital effects, 186  
digital facial animation, 30,  
193–194  
disconnection, building for,  
72–73  
dissolve (crossfade) transition,  
184, 185  
dolly, 123, 162, 163  
double take gesture, 23  
double-hand twist gesture, 20  
Dragonframe program, 135  
DSLR cameras, 118  
dynamic shots, 160–163  

e  
ezising principle, 46–47  
ECU (extreme close-up) shots, 159  
editing, 180–189  
equipment, 2, 128–130. See also cameras; lighting  
exaggeration principle, 39–41  
exercises  
ball bounce, 43  
expressing emotions with gestures, 23  
jumping minifigure, 51  
one-room set, building, 76  
pendulum, 48  
smoke effect, building, 79  
storyboarding, 149  
export options (animation software), 132  

 exposition, setting, 9, 173  
exposure sheets (X-sheets), 132,  
151–152  

expressing emotion  
basic gestures, 19–21  
complex gestures, 22–23  
facial animation, 28–30, 90,  
193–194  
learning from people-watching, 36  
mood lighting, 168  
music, 177  
extreme close-up (ECU) shots, 159  

f  
facades, using in backgrounds,  
81–82  
facial animation, 28–30, 90, 108,  
193–194  
fade transition, 184, 185  
feet (minifigure movement),  
18, 24  
fill light, 167  
filmmaking  
animatics, 150  

 brainstorming, 138–144  
cinematography, 154–166,  
172–173  
contests, 139, 179, 195, 199  
editing, 180–189  
lighting, 166–171  
script writing, 144–146  
sound, 176–179  
spreadsheets, 151–152  
storyboarding, 147–149  
flats, in modular sets, 75  
flicker (lighting), 170  

 flying, 31–32, 57  
focus, 9, 113, 172  
foley, 178  
follow-through principle, 48–49  
footage, importing into editing software, 181  

 forced perspective, 85, 166  
formatting, for scripts, 144–145  
frames per second (FPS), 11,  
156–157  
framing shots  
shot composition, 164–166  
shot movement, 160–163  
shot types, 158–159  
Frankenweenie (film), 135  
freak-out gesture, 23  
full-body poses, 14–16  

 g  
gestures  
adding to walk, 27, 55  

 basic, 19–21  
complex, 22–23  
learning from people-watching, 36  
overlapping, 52–54  

 glue, 129  
Grand Budapest Hotel, The (film), 154  
green screen, 190, 191  

 h  
hair pieces, 15, 17, 21, 23, 56  
hand twist gesture, 20  

 hands (minifigure articulation), 16, 18  
hard light, 169  
hardware, 2, 128–130. See also cameras; lighting  
head pop gesture, 21  
head scratch gesture, 22  
head shake gesture, 22, 56  
headroom, 164  
heads  

 minifigure articulation, 15  

 variations for a single character, 29–30
Herman, Sarah, 199
high five, 52–53
hinges, 68, 71, 129
hips (minifigure articulation), 16
horizontal (x-axis) shot
movement, 160

I
idea journal, 139
Illusion of Life, The (Thomas and
Johnston), 38
in-camera techniques
jumping and flying, 31
special effects, 78–79
info/inspector window (editing
software), 180
iris in/out transition, 184, 185
ISO setting (camera), 173

J
Johnston, Ollie, 38
joints, 14, 70, 129
jumper plates. See offset plates
jumping, 31, 42, 51, 57

K
key light, 167

L
LEGO Movie, The (film), viii, 84
LEGO ruler, 128
legs (minifigure articulation),
16, 18
levitation, 31–32
library (editing software), 180
LifeLites, 127
lighting
basic, 5
equipment, 124–127
safety, 166
techniques, 166–171
lip-syncing, 30, 90, 108,
192–194
Little Guys! scale, 107–108
live playback (animation
software), 132, 174
location (scripts), 144
looping playback, 174
“Loose Man” character, 67
macro focus mode (camera),
113, 172
Magic Picnic, The, ix
animatic, 150
backgrounds, 7, 166
city sets, 80–81
one-room set, 76
script, 145
shot list, 146
storyboards, 148–149
use of Play Approach, 142
manual settings (camera), 112
masking, 32
masking tape, 7, 65, 128
medium shot (MS), 159
microphones, 130, 178
microscale, 84–85
minifigure scale, 86, 110
minifigures, 14
articulation, 13
full-body poses, 14–16
limited, 35
minuscule movements,
17–18
facial animation, 28–30,
193–194
jumping, 31, 42, 51, 57
modifying, 17, 33–35
performance, 13
basic gestures, 19–21
complex gestures, 22–23
learning from people-
watching, 36
walking, 24–27
Miniland scale, 87–88
minuscule movements
(minifigures), 17–18
mobile apps, 3, 133
modifying minifigures, 17, 33–35
modular sets, 74–77
mood lighting, 168
motivated lighting, 171
movement. See also principles of
animation
building for, 68–74
minifigures
articulation, 14–18
gestures, 19–23
jumping, 31, 42, 51, 57
walking, 24–27
shot movement, 160–163
mouth shapes. See lip-syncing
MS (medium shot), 159
music, 177, 178, 188

N
neck (minifigure articulation), 15
non-LEGO elements, 82, 178
offset plates, 72, 129
for sets, 76
using with torsos, 17
one-room set, 76
onion skinning, 132, 174
overhead lighting, 5
overlapping action, 52–54
