

Errata for *Practical IoT Hacking* (updated to 3rd printing)

Page 75: In the 6th code block on the page, we added a third line so that the code now reads:

```
allow_anonymous false
password_file /etc/mosquitto/password
listener 1883
```

Page 78: The sentence that begins “Because MQTT uses TCP port 1833 . . .” should now read “Because MQTT uses TCP port 1883 . . .”
