

Errata for *Automate the Boring Stuff with Python, 2nd edition* (updated to 5th printing)

Page 317: The line marked by (1) that reads:

```
(1) for rowNum in range(2, sheet.max_row): # skip the first row
```

should now read:

```
(1) for rowNum in range(2, sheet.max_row + 1): # skip the first row
```

Page 482: The line that reads:

“If you’ve been skipping around in this book, you’ll want to read Chapter 17 and install the pillow module before continuing with this section.”

should now read:

“If you’ve been skipping around in this book, you’ll want to read Chapter 19 and install the pillow module before continuing with this section.”
