PREFACE xiii

PROLOGUE
A TALE THAT BEGINS ON THE MOON 1

The Story of Kaguya-hime 10
Cosmic Myths 18
    Ancient India's View of the Universe 18
    Ancient Egypt's View of the Universe 18
    Ancient Babylonia's View of the Universe 19
In China, Where Astronomy Was Originally Developed 19
In Ancient Greece, Where the Size of Earth Was Calculated 20
    Eratosthenes' Calculation Method 20
If Earth Is Round, the Moon Must Be Round Too 21

1
IS EARTH THE CENTER OF THE UNIVERSE? 23

A Mysterious Light Appeared in the Sky 24
Close Encounters 27
Does the Sun Revolve Around Earth? 34
A Heliocentric Model Was Proposed 2,300 Years Ago 40
From the Geocentric Theory to the Heliocentric Theory 50
Galileo's Discoveries—and Trial 56
Putting Things in Perspective 59
What Is the Approximate Distance to the Horizon? 66
Measuring the Size of the Universe: How Far to the Moon? 67
    Corner Cube Mirrors 67
    How a Corner Cube Mirror Works 67
    Before the Corner Cube Prism 68
Geocentric Theory vs. Heliocentric Theory—the Outcome of a Battle Royale 69
    What Kind of Orbit Did a Planet Trace in the Geocentric Theory? 70
    The Tychonic System That Embellished the Geocentric Theory 70
    Just How Progressive Was Copernicus? 71
    Kepler Completed the Heliocentric Theory 72
    What Did Galileo Do? 72
    What Has the Heliocentric Theory Taught Us? 73
A Somewhat Complicated Explanation of Kepler's Laws 73
    First Law: The Orbit of Every Planet Is an Ellipse with the Sun at the Focus 73
    Second Law: A Line Joining a Planet and the Sun Sweeps Out Equal Areas
        During Equal Intervals of Time 75
    Third Law: The Square of the Orbital Period of a Planet Is Directly Proportional
        to the Cube of the Semimajor Axis of Its Orbit 77

2
FROM THE SOLAR SYSTEM TO THE MILKY WAY 79

What If Kaguya-hime Came from a Planet in Our Solar System? 80
Kaguya-hime and the Solar System. 82
- Mercury. 83
- Venus 84
- Mars 85
- Jupiter. 86
- Saturn. 87
- Uranus 88
- Neptune 89
- Pluto 90
- Earth. 91
- The Moon 92
- The Sun 95

The Size of the Milky Way Galaxy. 104
What's in the Middle of the Galaxy? 106
Top Five Mysteries of the Galaxy That Have Not Yet Been Explained! 108
- What Is the Galaxy's Shape, and How Did It Form? 108
- What's at the Center? 108
- How Are Supermassive Black Holes Formed? 109
- What Is the Galaxy Made Of? 109
- What Will Happen When We Collide with the Andromeda Galaxy? 109

The Milky Way Galaxy Is One of Many Galaxies 110
The Universe Is Steadily Getting Larger. 116
- Why Can We See the Milky Way? 116
- A Disc-Shaped Galactic Model Is the Easiest to Understand 117
- Results of Scientific Observation Also Prove a Disc-Shaped Universe. 118
- An Idea from Kant Enlarged the Perceived Universe in a Flash 119
- How Did Technology for Observing the Universe Progress? 120
- Famous Telescopes 122
- What Can a Radio Telescope Observe? 124

Another Way to Measure the Size of the Universe: A Triangulation Trick 125
- Triangulation Can Give Us the Distance to Stars Beyond the Solar System 126

How Big Is the Solar System? 127

3
THE UNIVERSE WAS BORN WITH A BIG BANG 129

Galaxies Are Islands of Light in the Void of Space 130
The Winning Team Learns a Lesson. 133
What Is the Large-Scale Structure of the Cosmos? 140
- Planetary System 140
- Galaxy 140
- Group of Galaxies or Cluster of Galaxies. 140
- Supercluster of Galaxies 141

Hubble's Great Discovery 142
The Origins of the Universe: "Hubble's Great Discovery—Act I" 143
Back to the Play: "Hubble's Great Discovery—Act II" 146
If the Universe Is Expanding... 151
Everything Started with the Big Bang 161
Hubble's Theory of the Expansion of the Universe Was Imperfect. 162
Three Pieces of Evidence for the Big Bang Theory 166
Do Aliens Exist? 180
Calculating the Number of Extraterrestrial Civilizations 180
Extraterrestrial Life and a World-Renowned Physicist 181
Has Life Been Created Often? 182
Which Is the Closest Star System That Could Support Extraterrestrial Life? 183
Can We Contact an Extraterrestrial Civilization? 184
Tardigrades (Water Bears) Are the Toughest Astronauts 185
A Third Method of Measuring the Size of the Universe: If You Know the Properties of a Star, Can You Figure Out How Far Away It Is? 186
Stars with Varying Brightness Are "Lighthouses of the Universe" 188
Methods of Measuring Even Greater Distances 189

4
WHAT IS IT LIKE AT THE EDGE OF THE UNIVERSE? 191

Where Is the Universe Going? 192
The Closest Earthlike Planet. 203
The Kaguya-go Journey Board Game 206
Arrival at the "Edge" of the Universe 208
Professor Sanuki's Soliloquy 209

5
OUR EVER-EXPANDING UNIVERSE 213

The Big Show 215
The Multiverse Contains Numerous Universes 219
The Edge, Birth, and End of the Universe... 219
Why Might Space Be Curved? 219
Will You Return to the Same Location in a Plane, a Cylinder, and a Sphere? 220
Negative Curvature 221
Friedmann's Dynamic Universe. 222
What Will Ultimately Become of the Universe? 227
WMAP and Our Flat Universe. 229
The True Age of the Universe 232

INDEX 235
