Colophon

The text of this bible was typeset using the \LaTeX document markup language for the \TeX document preparation system. The primary typefaces used in this bible are from the Computer Modern family, created by Donald Knuth in \METAFONT . The aesthetics of this book are attributable to these excellent tools.

This bible contains one hundred eighty-nine thousand four hundred eighty-six words and one million four thousand three hundred fifty-eight characters, including those of this sentence.
