Introduction xii
Warm-Upxiv

PART 1 Basic Mechanisms

	Rotating motors 2
	Transmitting rotation with gears 12
	Changing the angle of rotation by 90° 24
	Oscillating mechanisms 28
	Reciprocating mechanisms 34
	Changing the angle of an axle 40
	Transmitting rotation with rubber bands 44
	Using cams 46
	Using turntables 50

Lighting up the center button 56

Controlling the LED Matrix 58

Using the remote control 60

PART 2 Moving Mechanisms

Vehicles with one motor 64

Vehicles with two motors 72

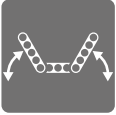

Turning with a steering wheel 80

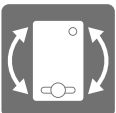

Walking robots 86

PART 3 Practical Mechanisms

	Gripping tools	96
	Lifting devices	104
	Flapping wings	110
	Using the projectile launcher	116
	Shooting devices	120
	Wind devices	126

PART 4 Using Sensors

	Using the Distance Sensor	132
	Using the Color Sensor	134
	Using the Hub's built-in sensor	136

Vehicles with sensors 142

More ways to use sensors 160

PART 5 Other Enjoyable Mechanisms

Various moving mechanisms 170

Spinning tops 196

Drawing devices 206

Automatic doors 226

Making fun games and toys 232

Bonus mechanisms 248
