

Master Your Mac

command

simple ways to tweak,
customize, and secure os x

MATT CONE

Contents in Detail

Introduction	xxi
What This Book Is About	xxii
What's in This Book	xxii

Part 1: Back to Basics

Chapter 1: The Best Shortcuts (and How to Make Your Own)	3
What You'll Be Using	4
Using Keyboard Shortcuts Built into OS X	4
Learning Keyboard Shortcuts	4
Changing System-Level Keyboard Shortcuts	6
Changing and Adding Application-Level Keyboard Shortcuts	8
Creating Your Own Shortcut Commands	10
Additional Ideas for Controlling Your Mac with Keyboard Shortcuts	12
Chapter 2: Starting Applications Automatically at Login	13
What You'll Be Using	14
Adding Login Items	14
Adding Global Login Items	15
Resuming Applications and Reopening Windows at Login	16
Configuring Advanced Login Item Settings with Exhaust	17
Additional Ideas for Starting Applications Automatically at Login	18
Chapter 3: Finding Files and Folders Fast	19
What You'll Be Using	20
Mastering Spotlight Searches	20
Improving Spotlight's Search Results	21
Using Operators to Focus Searches	22
Adding Metadata to Find Files Quickly with Spotlight	23
Rebuilding Spotlight's Index	24
Using Find Any File to Search for Files and Folders	26
Additional Ideas for Finding Files and Folders	28
Chapter 4: Organizing Windows	29
What You'll Be Using	30
Switching Between Applications	30
Opening Files with the Application Switcher	31
Cycling Through Windows	31
Mission Control: The Ultimate Application and Window Switcher	31
Configuring Mission Control's Settings	31
Switching Between Applications and Windows with Mission Control	34
Creating Virtual Desktops with Spaces	35

Maximizing Your Screen Space	35
Using Divvy	35
Using Moom	37
Using Cinch.....	37
Additional Ideas for Managing Applications and Windows	39
Chapter 5: Cleaning House	41
What You'll Be Using.....	42
Removing Applications with Launchpad.....	42
Removing Applications with AppCleaner.....	43
Removing Preference Panes	45
Additional Ideas for Removing Applications	46
Chapter 6: Adjusting Energy and Display Settings	47
What You'll Be Using.....	48
Understanding Energy and Display Settings.....	48
Temporarily Disabling Energy Settings.....	50
Getting Started with Caffeine	50
Turning Caffeine On and Off	50
Adjusting Your Display's Color at Night.....	51
Additional Ideas for Adjusting Energy and Display Settings	53

Part 2: Boosting Productivity

Chapter 7: Launching Applications Fast.....	57
What You'll Be Using.....	58
Getting Your Feet Wet with Spotlight	58
Configuring Spotlight as an Application Launcher.....	59
Using Alfred	60
Setting Up Alfred.....	60
Doing Math.....	63
Defining and Spelling Words	63
Searching the Internet.....	64
Finding Files	65
Controlling Your Computer.....	66
Doing Even More with Alfred.....	66
Using LaunchBar.....	67
Setting Up LaunchBar	67
Training LaunchBar to Remember Abbreviations.....	70
Launching Items Fast.....	71
Accessing Websites.....	71
Composing Email Messages.....	72
Scheduling Calendar Events	73
Playing Songs with iTunes.....	74
Doing Even More with LaunchBar	76
Additional Ideas for Using Application Launchers	76

Chapter 8: Customizing Trackpad and Mouse Gestures	77
What You'll Be Using	78
Using Gestures in OS X	78
Learning to Use Gestures	79
Customizing and Disabling Gestures	79
Customizing Gestures with Third-Party Applications	80
Using MagicPrefs	81
Using jitouch	82
Using BetterTouchTool	84
Additional Ideas for Customizing Trackpad and Mouse Gestures	86
Chapter 9: Connecting Multiple Displays to Your Mac	87
What You'll Be Using	88
Connecting the Displays to Your Mac	88
Determining the Type of Port on Your Mac	88
Finding the Right Adapter	89
Adjusting Display Settings in OS X	89
Positioning the Monitors	89
Adjusting Display Settings	90
Controlling How Windows Are Positioned and Displayed	92
Making the Menu Bar Available Everywhere	93
Keeping a MacBook Awake with the Lid Closed	94
Additional Ideas for Connecting Multiple Displays to Your Mac	95
Chapter 10: Talking to Your Mac	97
What You'll Be Using	98
Setting Up Speech Recognition	98
Talking to Your Computer	100
Telling Your Computer What to Type	101
Giving Your Computer a Voice	102
Finding and Installing High-Quality Voices	102
Customizing Text-to-Speech Settings	103
Creating Custom Commands for Speech Recognition	104
Additional Ideas for Talking to Your Mac	105

Part 3: Automation

Chapter 11: Automating Tasks with Macros	109
What You'll Be Using	110
Creating a Macro with Automator	110
Building the Workflow	110
Using the Macro	114
Using Macros with Keyboard Maestro	114
Enabling Existing Macros	115
Assigning Triggers	116
Creating a New Macro	117

Adding and Configuring Groups	118
Disabling Macros	119
Additional Ideas for Making Macros	119
Chapter 12: Automating Tasks with AppleScript	121
What You'll Be Using	122
What Can You Do with AppleScript?	122
What's the Difference Between a Macro and a Script?	122
Getting Started with the AppleScript Editor	123
Writing and Running Your First AppleScript	123
Scripting with Natural Language	125
Learning AppleScript by Example	125
Dabbling in Advanced AppleScript Concepts	126
Working with Applications	126
Working with Variables	127
Using Flow-Control Structures to Do Work	127
Building a Simple User Interface	128
Launching Your AppleScript	130
Additional Ideas for Creating and Using AppleScripts	130
Chapter 13: Creating a Bluetooth Proximity Monitor	131
What You'll Be Using	132
How Bluetooth Proximity Detection Works	132
Setting Up the Bluetooth Proximity Monitor	132
Performing Actions Based on Bluetooth Proximity	133
Locking the Screen	133
Pausing iTunes	134
Setting an Away Message	135
Adding the Scripts and Testing Everything	135
Additional Ideas for Creating a Bluetooth Proximity Monitor	136
Chapter 14: Automating File and Folder Actions	137
What You'll Be Using	138
Using OS X Folder Actions	138
Using Automator to Create Folder Actions	140
Using Hazel to Perform File and Folder Actions	142
Taking Out the Trash	143
Purging Old Downloads	144
Archiving Folders	145
Additional Ideas for Automating File and Folder Actions	146
Chapter 15: Triggering Location-Based Actions	147
What You'll Be Using	148
Understanding Location-Based Actions	148
Getting Started with Sidekick	149
Adding Places	149
Configuring Actions	150
Setting Up Triggers	152

Manually Switching Places	152
Using AppleScripts as Actions	153
Additional Ideas for Triggering Actions	154

Part 4: Managing Your Life

Chapter 16: Managing Your Email	157
What You'll Be Using	158
Taming the Mail Application	158
Controlling How Often Mail Checks for Email	158
Using Rules to Filter Incoming Messages	159
Creating a Smart Mailbox	160
Categorizing Email with Tags	161
Tagging Messages	162
Creating Effective Tags	163
Finding Tagged Messages	163
Processing Email with Keystrokes	163
Using Mail Act-On	163
Configuring Keystrokes	164
Archiving Email	165
Setting Up MailSteward	165
Creating the Archive	167
Finding Messages in the Archive	168
Additional Ideas for Managing Your Email	169
Chapter 17: Killing Spam	171
What You'll Be Using	172
Filtering Junk Mail in the Mail Application	172
Enabling the Junk Mail Filter	172
Training Mail to Filter Spam Accurately	174
Taking Off the Training Wheels	174
Filtering Spam on a Server with Gmail	176
Adding Your Email Accounts to Gmail	177
Enabling IMAP Access	179
Using the Mail Application to Read Your Gmail	180
Additional Ideas for Killing Spam	182
Chapter 18: Creating Quick and Easy Alerts	183
What You'll Be Using	184
Creating Basic Alerts	184
Setting Repeating Alarms	184
Configuring Alerts	185
Creating Advanced Alerts	185
Using the Alarms Timeline	186
Synchronizing Alarms with Calendar and Contacts	186
Additional Ideas for Reminders	188

Chapter 19: Managing Your Music	189
What You'll Be Using.....	190
Getting Started with iTunes Match.....	190
Signing Up for iTunes Match.....	190
Upgrading Your Music.....	191
Streaming Your Music to Other Computers.....	192
Controlling iTunes with Shortcuts.....	193
Getting Started with CoverSutra.....	193
Configuring Shortcuts in CoverSutra.....	194
Using the CoverSutra Player.....	195
Adding Missing Metadata.....	195
Fixing Mislabeled Songs.....	195
Adding Missing Cover Art.....	197
Managing iTunes Libraries.....	198
Adding Existing Libraries.....	198
Creating a New Library.....	199
Duplicating a Library.....	200
Copying Songs from One Library to Another.....	200
Merging Libraries.....	201
Moving Your Media Folder to a Different Location.....	202
Additional Ideas for Managing Your Music.....	202

Part 5: Internet and Networks

Chapter 20: Creating Your Own Safari Extension	205
What You'll Be Using.....	206
Understanding Safari Extensions.....	206
Getting Started.....	208
Registering for the Safari Developer Program.....	208
Generating a Certificate.....	208
Enabling the Safari Developer Menu.....	211
Creating a Safari Extension.....	212
Configuring the Extension Settings.....	212
Making the Global Page.....	215
Designing the Buttons.....	216
Installing and Building the Extension.....	217
Additional Ideas for Creating Your Own Safari Extension.....	217
Chapter 21: Turning Websites into Applications	219
What You'll Be Using.....	220
Creating Site-Specific Browsers.....	220
Pinning a Site-Specific Browser to the Menu Bar.....	222
Customizing Display Settings.....	223
Modifying Site-Specific Browsers with User Styles.....	223
Adding Functionality to Site-Specific Browsers with User Scripts.....	226
Additional Ideas for Turning Websites into Applications.....	227

Chapter 22: Storing Files in the Cloud	229
What You'll Be Using.....	230
Using iCloud to Store Files.....	230
Getting Started with iCloud.....	230
Using iCloud with Applications.....	231
Using Dropbox to Store and Synchronize Files.....	232
Getting Started with Dropbox.....	232
Sharing Dropbox Folders with Others.....	233
Cool Things You Can Do with Dropbox.....	235
Additional Ideas for Storing Files in the Cloud.....	236
Chapter 23: Accessing Your Mac Remotely	237
What You'll Be Using.....	238
Preparing Your Mac for Remote Connections.....	238
Connecting to Your Mac Remotely.....	241
Preparing to Connect.....	241
Accessing Shared Files and Folders.....	241
Sharing Your Mac's Screen.....	242
Additional Ideas for Accessing Your Mac Remotely.....	244
Chapter 24: Turning Your Mac into a Web and FTP Server	245
What You'll Be Using.....	246
Understanding Web Servers.....	246
Configuring Server Software.....	246
Starting Apache.....	247
Using a Solution Stack.....	247
Enabling Remote Login.....	249
Making Your Website Accessible to the World.....	250
Enabling Port Forwarding.....	250
Using Dynamic DNS.....	252
Additional Ideas for Turning Your Mac into a Web Server.....	253
Chapter 25: Wirelessly Sharing a Printer and Hard Drive	255
What You'll Be Using.....	256
Sharing a Printer.....	256
Connecting the Printer to the Base Station.....	256
Printing Wirelessly from Your Mac.....	256
Sharing a Hard Drive.....	257
Connecting the Hard Drive to the AirPort Extreme.....	257
Controlling Access to the Network Drive.....	258
Accessing the Hard Drive Wirelessly.....	261
Additional Ideas for Wirelessly Sharing a Printer and Network Hard Drive.....	262
Chapter 26: Synchronizing Files Between Computers	263
What You'll Be Using.....	264
Getting Started with ChronoSync.....	264
Installing ChronoSync and ChronoAgent.....	264
Connecting All of the Computers.....	264

Setting Up Synchronizations.....	267
Selecting Folders and Volumes to Synchronize.....	267
Selecting a Synchronization Option.....	268
Synchronizing Your Files	269
Scheduling Synchronizations	270
Monitoring ChronoSync	271
Monitoring Synchronizations	271
Getting Notifications.....	272
Additional Ideas for Synchronizing Files	272

Part 6: Serious Security

Chapter 27: Creating Strong Passwords and Storing Them Securely	275
What You'll Be Using.....	276
Understanding Password Management Applications.....	276
Tips for Creating Strong Passwords.....	277
Using Keychain Access	278
Creating and Saving Passwords to the Keychain	279
Protecting Other Sensitive Information with the Keychain	280
Locking and Unlocking the Keychain	281
Repairing and Backing Up the Keychain.....	281
Using 1Password.....	282
Using the 1Password Browser Extension	282
Integrating 1Password with Dropbox.....	284
Additional Ideas for Creating Strong Passwords and Storing Them Securely	285
Chapter 28: Enabling Firmware Password Protection	287
What You'll Be Using.....	288
Understanding Firmware Password Protection.....	288
Enabling the Firmware Password	289
Additional Ideas for Protecting Your Mac at the Hardware Level.....	289
Chapter 29: Encrypting Your Mac's Internet Connection	291
What You'll Be Using.....	292
Understanding How Attackers Capture Data on Public Wireless Networks.....	292
Session Hijacking.....	293
Man-in-the-Middle Attacks.....	293
Forcing HTTPS Encryption.....	293
Using the HTTPS Everywhere Extension	294
Using Other Options to Force HTTPS.....	295
Using a VPN Connection	295
Selecting a VPN Service Provider	296
Manually Connecting Your Mac to a VPN.....	296
Configuring Your Mac to Automatically Connect to a VPN.....	297

Using a SOCKS Proxy Server.....	299
Setting Up the SOCKS Proxy Server	300
Manually Connecting Your Mac to a SOCKS Proxy Server.....	301
Configuring Your Mac to Automatically Connect to a SOCKS Proxy Server.....	303
Additional Ideas for Encrypting Your Mac's Internet Connection	306
Chapter 30: Enabling Firewalls	307
What You'll Be Using.....	308
Understanding How Firewalls Work.....	308
The OS X Application Firewall.....	309
Turning On the OS X Firewall	309
Monitoring the OS X Firewall Logs.....	311
Creating iptw Rules with NoobProof.....	311
Monitoring and Controlling Outgoing Connections.....	315
Additional Ideas for Using Firewalls.....	317
Chapter 31: Preserving Your Anonymity Online	319
What You'll Be Using.....	320
Understanding How Tor Works	320
Surfing the Internet Anonymously with Tor	321
Routing Application Data Through Tor	323
Configuring Your Mac as a Tor Relay	324
Additional Ideas for Preserving Your Anonymity Online	327
Chapter 32: Encrypting Your Hard Disks and Backups.....	329
What You'll Be Using.....	330
Checking Partitions and Backing Up Your Hard Disk	330
Turning On FileVault Whole Disk Encryption.....	331
Encrypting Secondary Volumes	335
Encrypting Time Machine Backup Disks.....	335
Additional Ideas for Using Full Disk Encryption.....	337
Part 7: Monitoring, Troubleshooting, and Maintenance	
Chapter 33: System and Process Monitoring	341
What You'll Be Using.....	342
Why You Need to Monitor Your Mac	342
Learning the Lingo	343
Using Activity Monitor.....	344
Using top	345
Using iStat Menus.....	346
Additional Ideas for Monitoring Your Mac.....	348
Chapter 34: Repairing Disk Permissions	349
What You'll Be Using.....	350
How Repairing Disk Permissions Works	350

Verifying and Repairing Disk Permissions Manually	351
Repairing Disk Permissions Automatically	352
cron Crash Course	352
Using CronniX to Schedule Repairs.....	353
Additional Ideas for Repairing Disk Permissions.....	354
Chapter 35: Verifying and Repairing the Hard Disk	355
What You'll Be Using.....	356
Should You Verify and Repair Your Hard Disk?.....	356
Verifying the Hard Disk.....	356
Repairing the Hard Disk with Disk Utility.....	357
Repairing the Hard Disk with fsck	358
Additional Ideas for Repairing the Hard Disk.....	359
Chapter 36: Making Better File Backups.....	361
What You'll Be Using.....	362
Creating a Backup Plan.....	362
Backing Up with Time Machine	363
Making Your First Time Machine Backup	363
Scheduling Backups	364
Excluding Files from Backups	365
Using a Network-Attached Storage Device	366
Making an Exact Copy of Your Hard Disk	366
Making Your First SuperDuper Backup.....	367
Testing Your SuperDuper Backup	368
Scheduling and Updating SuperDuper Backups.....	368
Storing Backups on the Internet.....	370
Making Your First CrashPlan Backup.....	370
Configuring CrashPlan's Network Options	372
Restoring from Backups	372
Restoring from a Time Machine Backup.....	372
Restoring from a SuperDuper Backup	374
Restoring from a CrashPlan Backup	375
Additional Ideas for Backing Up Your Mac	376
Chapter 37: Maintaining a MacBook's Battery.....	377
What You'll Be Using.....	378
Tips for Keeping Your Battery Healthy	378
Achieving Incredible Battery Life	379
Monitoring the Battery's Status	379
Configuring Energy Settings.....	380
Changing the Display and Keyboard Brightness.....	380
Disabling AirPort and Bluetooth.....	381
Quitting Applications and Disconnecting Peripherals.....	382

Calibrating the Battery	382
Manually Calibrating the Battery.....	382
Battery Calibration Assistance.....	383
Additional Ideas for Maintaining a MacBook’s Battery.....	384
Chapter 38: Creating an Emergency USB Drive	385
What You’ll Be Using.....	386
Evaluating Your Emergency Drive Options.....	386
Emergency USB Drive	386
Recovery HD.....	386
Internet Recovery.....	386
Making Your Own Emergency USB Drive.....	387
Using Your Emergency USB Drive	388
Peeking Inside the Emergency USB Drive.....	389
Index	390
