No Starch Press Teams with Humble Bundle to Benefit the Python Software Foundation
Readers pay what they want for over a dozen Python programming books

Humble Book Bundle

LEARN YOU MORE PYTHON

by  no starch
press

SAN FRANCISCO (May 17, 2021)—Top tech-book publisher [No Starch Press](#) is teaming up with Humble Bundle for the next three weeks to offer readers a unique deal on a curated selection of Python coding titles. In addition to letting patrons pick their price, the [Learn You More Python](#) book bundle benefits the [Python Software Foundation](#) and will help advance its mission to support the growth of a diverse and international community of Python programmers. Readers can also donate a portion of their payment to the [No Starch Press Foundation](#), a nonprofit created to support the hacking community.

"With the PSF celebrating its 20th anniversary this year and PyCon happening this month, it seemed like a great time to contribute to the foundation's scholarship and grant efforts," said No Starch Press founder and publisher Bill Pollock. "It also goes without saying how popular our Python books are, so we're always happy to help advance the Python programming language in any way we can."

Here's how it works: Visitors to the [Humble Bundle](#) site choose which ebooks they want, what they want to pay for them, and how much of their purchase goes to each charity. With a market value totaling over \$400—including bestsellers like *Automate the Boring Stuff with Python*, *Python Crash Course, 2nd Edition* and *Python for Kids*—it's a win-win for aspiring coders and veteran programmers alike.

Readers pay \$1 or more to unlock:

[Python for Kids](#)

[Mission Python](#)

[Teach Your Kids to Code](#)

[Learn to Program with Minecraft](#)

Readers who pay \$10 or more also get:

[Invent Your Own Computer Games with Python, 4th edition](#)

[Doing Math with Python](#)

[Cracking Codes with Python](#)

[Serious Python](#)

[Math Adventures with Python](#)

Readers who pay \$18 or more will get all of the above, plus:

[Python Crash Course, 2nd Edition](#)
[Automate the Boring Stuff with Python, 2nd Edition](#)
[Real-World Python](#)
[Beyond the Basic Stuff with Python](#)
[Python One-Liners](#)
[Natural Language Processing with Python and spaCy](#)

[Humble Bundle: Learn You More Python](#) runs from May 17th through June 7th, 2021.

###

About No Starch Press

San Francisco-based No Starch Press has published the finest in geek entertainment since 1994, creating both timely and timeless titles on hacking, cybersecurity, AI, math, science, LEGO, programming for all ages, and more. The books have personality, the authors are passionate, and the content tackles topics that people care about. For more information, please visit <https://nostarch.com/>.

About Humble Bundle

Humble Bundle sells digital content through its pay-what-you-want bundle promotions and the Humble Store. When purchasing a bundle, customers choose how much they want to pay and decide where their money goes—between the content creators, charity, and Humble Bundle. Since the company's launch in 2010, Humble Bundle has raised more than \$140 million through the support of its community for a wide range of charities, providing aid for people across the world. For more information, visit <https://www.humblebundle.com/>.

About the Python Software Foundation

The Python Software Foundation (PSF) is a non-profit membership organization devoted to advancing open source technology related to the Python programming language. As a 501(c)(3) scientific and educational public charity, the PSF's mission is to promote, protect, and advance the Python language, and to support and facilitate the growth of a diverse and international community of Python programmers. For more, visit <https://www.python.org/psf-landing/>.

About the No Starch Press Foundation

The No Starch Press Foundation is a 501(c)3 nonprofit created to support and grow the collective knowledge and contributions of the worldwide hacker and STEM communities. The Foundation supports hackers of all types, regardless of experience—whether passionate beginners or lifelong learners wishing to make a broader contribution to their community and the world. For more information, please visit <https://nostarchfoundation.org>.
